### REMARKS

The present response is intended to be fully responsive to all points of objection and rejection raised by the Examiner and is believed to place the application in condition for allowance. Favorable reconsideration and allowance of the application is respectfully requested.

Applicants assert that the present invention is new, non-obvious and useful. Prompt consideration and allowance of the claims is respectfully requested.

### Status of Claims

Claims 1-16 have been previously withdrawn from the application in response with traverse to a restriction requirement. Claims 17-24 were pending in the application. Claims 17-24 have been cancelled. New claims 25-40, which are identical to previously withdrawn claims 1-16, have been added.

Claims 17-24 have been canceled without prejudice or disclaimer. In making this cancellation without prejudice, Applicants reserve all rights in these claims to file divisional and/or continuation patent applications.

Applicants respectfully assert that the new claims add no new matter.

### CLAIM REJECTIONS

#### 35 U.S.C. § 102 Rejections

In the Office Action, the Examiner rejected claims 17-24 under 35 U.S.C. § 102(b), as being anticipated by Shnaps (U.S. Pat. No. 6,345,784, hereinafter the "Shnaps reference"). Although Applicants respectfully traverse this rejection, in the interest of furthering the present application, and in accordance with the filing of a Request for Continued Examination, Applicants have decided to withdraw claims 17-24 and to reintroduce original claims 1-16 for an Apparatus as new claims 25 - 40.

The limitations of reintroduced claims 25 - 40 are neither taught nor suggested in the Shnaps reference. Therefore, claims 25 through 40 are considered allowable.
